

AGENDA FOR MSHOA Q&A re ROAD ASSESSMENT MEETING  
VIRTUAL  
JUNE 10, 2021 at 7:00 PM – 8:00 PM

Meeting called to order by Bill Klevenberg – 7pm

Discussion will address the following questions that have been posed by members:

**Member questions:**

**Paving Questions:**

What is the description of the asphalt mix to be used (aggregate, polymer modification for increased life & durability etc.)?

What road warranty will be provided by the paving company for premature failures?

What assurances do we have for the paving stability (permanent deformation resistance), durability – moisture damage and aging, fatigue cracking resistance, resistance to thermal cracking, permeability, flexibility?

**Question:**

Is it reasonable to consider just doing Blue Shadow this time? It is the road EVERYONE uses and, as I remember, is about half of the total mileage in the subdivision. The rest of the roads are holding up much better and may be fine for a number of years. I know “money is cheap” right now, but I assume you will have pushback on the assessment component.

Meeting to be adjourned at approximately 8pm.

Please Note – This agenda may be changed prior to the meeting
